Cover Letter

Date: 02 May 2025

Dear Sir,

I am writing to formally introduce myself and my company, **TechSerm**, in connection with the proposed development of your **Alumni Website**. We are excited about the opportunity to collaborate with your team and are committed to delivering a high-quality, user-friendly solution tailored to meet your organizational goals.

At Techserm, we are passionate about building software that not only meets technical expectations but also contributes to meaningful outcomes for our clients. Our experienced and creative team is fully prepared to undertake this project and deliver a system that supports growth, engagement, and ease of use across your learning ecosystem.

The attached report outlines our complete project approach, including development stages, timelines, and deliverables, ensuring full transparency and clarity throughout the process. We believe that clear communication and mutual understanding are the foundations of successful software development, and we are committed to supporting you every step of the way.

If you have any questions or require further clarification at any point, please feel free to reach out directly. We look forward to the opportunity to work together and make this project a resounding success.

Sincerely,
Abdullah Al Maruf
Project Manager
TechSerm

1.0 Overview

We are committed to designing and developing an **Interactive Alumni Website** tailored to your specifications. Based on your provided requirements and proposal, our team will deliver all outlined features and functionality.

Our approach prioritizes both **usability** and **aesthetics**—ensuring a seamless user experience while maintaining high design standards. Understanding the critical role of simplicity and efficiency in organizational platforms, we aim to deliver an intuitive, scalable, and visually appealing solution that aligns with your expectations.

2.0 Tools and Technology

Sector	Technology
UI/UX Design	Use latest tools (Figma, Sketch , etc)
Frontend	Flutter
Backend	Dart

3.0 Work Process

a. Requirements Finalization

- List core features: profile, application form, member list with filters, payment form, token generation.
- Confirm data fields and user roles.

b. Planning

- Sketch simple wireframes for key pages.
- Define basic user flow (form → submission → admin approval → token).
- Choose a tech stack (e.g., Laravel).

c. Design

- Select a clean UI theme with responsive layout.
- Design minimal, functional forms and lists.

d. Development

- Front-End: Build pages using HTML/CSS/JS or Blade templates.
- Back-End:
 - Create database tables (users, payments, tokens).
 - Set up CRUD for all features.
 - Add basic validation and security (CSRF, auth).

e. Testing & Deployment

- Test forms, filters, and token generation.
- Deploy to live server (e.g., shared hosting or VPS).
- Configure domain and SSL.

4.0 Resource Costing

Title	Count	Responsibility	Duration (Days)	Daily Rate (BDT)	Total (BDT)
Project Manager	1	Project Management			
UI/UX Designer	1	Design UI/UX			
Developer	2	Frontend and Backend development			
QA Engineer	1	Test Application			
	Total				

5.0 Feature Module Wise Costing

*Efforts for each resource is given in man days

PM = Project Manager, UI = UI/UX Designer, D = Developer, QA= QA Engineer

#	Functionalities	Cost	PM	UI	D	QA	Total
1	Main website design - Homepage with organization intro, vision, committee list - Notice board display - Photo gallery (album-based)						
2	User Registration & Profile - Alumni registration with full details (name, parents, blood group, contact, education, profession, address, photo) - Member dashboard with editable profile - Auto-generated printable ID card						
3	Member Directory Searchable member list by name, blood group, profession, etc						
4	Job Replacement Cell - Admin-posted job circulars - Searchable job list for members						
5	Donation System - Payment gateway integration (bKash, Nagad, etc.) - Member donation history						

	Admin dashboard for donation and expense tracking						
6	Blood Donation System - Member donor availability status - Emergency blood request system - Donor search by blood group/location						
7	Notice Board - Admin-posted notices - Visible on homepage and member dashboard						
8	Admin Panel - Member management (approve, edit, delete) - Donation & expense management - Job, notice, gallery, committee management - Role-based access control						
	Total
